Student Natalie Pham has reached out to Ms. Swaggard, photography teacher to inquire about continuation of project (Natalie established a year ago) to save the art in the hallways (that will otherwise be destroyed during renovation). Digital photography of the paintings in the halls had begun and will need to be continued. Natalie is interested in passing the baton of this project along to another student so that the project may be continued and completed after she graduates. We are also in need of a chair person for this project.
